

*"Satisfying our customer's expectations
effectively and efficiently to
achieve and maintain profitability"*

Our policy will be achieved by...

- * Being a supplier of value-added products and services by implementing and following a Quality Management System that meets regulatory and ISO 9001 requirements.*
- * Continuously improving the performance of PMX and the Quality Management System by establishing business objectives through the organization.*
- * Communication of this policy to the employees of PMX*
